Passionate junior developer with hands-on experience in building web applications and contributing to cross-functional teams. Skilled in JavaScript, React, Node.js, and RESTful API integration, with a strong foundation in frontend and backend development. Collaborative team player with a focus on writing clean, maintainable code and continuously learning new technologies. Eager to contribute to innovative projects and grow as a developer in a fast-paced, supportive environment.

## EXPERIENCE

Health Nest

2022 - 2023

*Health Nest is a health tech startup building AI-driven well-being apps.*

### **Junior Frontend Developer**

Collaborated with cross-functional teams to develop and implement key features for a health-focused web application, contributing to frontend development and ensuring seamless user experiences.

- Implemented secure user authentication flows compliant with HIPAA guidelines using OAuth 2.0.
- Collaborated with backend developers to integrate RESTful APIs for synchronization with wearable devices (e.g., Fitbit, Apple Watch).
- Contributed to Agile sprints, participating in daily standups and code reviews to ensure high-quality code.
- Assisted in prototyping a 3D wellness dashboard using Three.js to visualize user health metrics, working under the guidance of senior engineers.

Tech Stack: JavaScript, React, TypeScript, Node.js, REST APIs, Git, Jira

## EDUCATION

**AS Computer Science**, Southern New Hampshire University (Current)
